## From the Chief's Desk

~ *Stayton Fire Chief Jack Carriger*

Although the November 2<sup>nd</sup> election date grows near, there is still time to educate our community about the Fire & Medical Response Local Option Levy and remind them to vote.

We still have a week left to get out into our neighborhoods and hand out flyers informing our citizens about the help we need to continue to provide timely, consistent response. There is several ways to get out into the community and help inform the voters. Please contact the office if you have questions or would like to help get the word out.

Winter has most certainly arrived and with that the days are becoming much shorter and the driving conditions are changing dramatically.

With shorter days we will be doing a much higher percentage of our response driving in the dark and in inclement weather. Slowing down and elevating our

situational awareness is a must to respond safely to the station and to the call. Taking the time to ensure our visibility by having clear windows and mirrors is critical to arriving safely and providing service. Reducing our speed is the highest priority in preventing accidents.

Stayton Fire District has an outstanding safety record in accident avoidance over the years and our goal is to preform our duties in a safe manner and maintain our outstanding record. "Everyone goes home safe".

Have a Safe and Happy Halloween!

## Life Member— Bonnie Reid

Bonnie Reid was a volunteer firefighter with the Mehama station for 25 years from 1983 to 2008, and continued her service as a Support member from 2008-2013.

It is with grateful hearts that we recognize Bonnie for her many years of dedicated service to Stayton Fire District and the community of Mehama.

Bonnie received our Volunteer Service with Pride award for 2008 and as a member of the entire Mehama crew in 2010. She was also Support Member of the Year for 2010.

Thank you Bonnie for your spirit of service, dedication and commitment as a Volunteer for Stayton Fire District! We are proud to have you as a Life Member!

## Training Facility Update

We had a great work party at the Training Facility on October 23<sup>rd</sup> completing several projects to include: Installing and sheeting three of the movable walls on the second floor, installed four doors and hardware, framed in three windows on the first floor, installed the cabinets and appliances in the kitchen area, and repaired floors in the tower. We also did some general cleanup and removed some of the excess furniture.

## Fire & Medical Response

### Stayton Fire District

### Local Option Levy Measure 24-459

#### Why are we asking?

- Demand for emergency services continues to increase while the number of volunteers decreases.
- The number of emergency calls on nights and weekends with no volunteer response is increasing.
- Volunteers respond from home to the stations and then to the incident. Paid staff would respond immediately from the station, cutting response times in half.
- We often experience little or no response during evenings and weekends. Volunteer response time averages 12 minutes. Paid staff would cut response time to 6 minutes on average.

*Fires double in size every 30 seconds. CPR should be started within 6 minutes to increase survival rate for heart attack victims.*

#### How does this benefit you?

- Ensures response to all emergencies
- Cut response times in half
- Helps save lives and reduce property loss
- We can provide additional or enhanced services including fire prevention, public educations, pre-planning and safety inspections.

#### How much will it cost?

For example: a \$250,000 home would be about \$18.54 per month.

The next phase will be to cut the opening between the third and fourth container on the second floor, build the terrace wall and install a patio door.

Many thanks to Davis Blackman, Larry Achen, Bryn Nelson, and Tyler Marquez from Aumsville Fire and Taunie Alley, Matt Riordan, Braedon Davidson, John Jensen, Scott Vigil, Jay Alley, and Doug Kintz from Stayton Fire. We are very fortunate to have so many volunteers who are dedicated to improving the training facility and ensure quality training for all. Thank you!

## IDENTITY THEFT AND INTERNET SCAMS

Unfortunately this is something we need to be reminded of on a regular basis. Not the happiest of subjects, but very important.

Today's technology allows us to connect worldwide, bank and shop online, and control our televisions, homes, and cars from our smartphones. Unfortunately, with this added convenience comes an increased risk of identity theft and Internet scams.

### COMMON INTERNET SCAMS

As technology continues to evolve, cybercriminals will use more sophisticated techniques to exploit systems, accounts, and devices to steal your identity, personal information, and money. To protect yourself from online threats, you must know what to look for. Some of the most common Internet scams include:

- **COVID-19 SCAMS** take the form of emails with malicious attachments or links to fraudulent websites to trick victims into revealing sensitive information or donating to fraudulent charities or causes. Exercise caution in handling any email with a COVID-19-related subject line, attachment, or hyperlink, and be wary of social media pleas, texts, or calls related to COVID-19.
- **IMPOSTER SCAMS** occur when you receive an email or call from a person claiming to be a government official, family member, or friend requesting personal or financial information. For example, an imposter may contact you from the Social Security Administration informing you that your Social Security number (SSN) has been suspended, in hopes you will reveal your SSN or pay to have it reactivated.

### SIMPLE TIPS

- **DOUBLE YOUR LOGIN PROTECTION.** Enable multi-factor authentication (MFA) to ensure that the only person who has access to your account is you. Use it for email, banking, social media, and any other service that requires logging in. If MFA is an option, enable it by using a trusted mobile device, such as your smartphone, an authenticator app, or a secure token—a small physical device that can hook onto your key ring.
- **SHAKE UP YOUR PASSWORD PROTOCOL.** According to (National Institute of Standards and Technology (NIST) guidance, you should consider using the longest password or passphrase permissible. Get creative and customize your standard password for different sites, which can prevent cybercriminals from gaining access to these accounts and protect you in the event of a breach. Use password

managers to generate and remember different, complex passwords for each of your accounts.

- **STAY UP TO DATE.** Keep your software updated with the latest version available. Maintain your security settings to keep your information safe by turning on automatic updates, so you don't have to think about it, and set your security software to run regular scans.

### RESOURCES AVAILABLE TO YOU

If you discover that you have become a victim of cybercrime, immediately notify authorities to file a complaint. Keep and record all evidence of the incident and its suspected source. The list below outlines the government organizations that you can file a complaint with if you are a victim of cybercrime.

- **FTC.gov:** The FTC's free, one-stop resource, [www.identitytheft.gov/can](http://www.identitytheft.gov/can) help you report and recover from identity theft. Report fraud to the FTC at [ftc.gov/OnGuardOnline](http://ftc.gov/OnGuardOnline) or [www.ftccomplaintassistant.gov](http://www.ftccomplaintassistant.gov).
- **US-CERT.gov:** Report computer or network vulnerabilities to US-CERT via the hotline: 1-888-282-0870 or [us-cert.cisa.gov](http://us-cert.cisa.gov). Forward phishing emails or websites to US-CERT at [phishing-report@us-cert.gov](mailto:phishing-report@us-cert.gov).
- **IC3.gov:** If you are a victim of online crime, file a complaint with the Internet Crime Complaint Center (IC3) at [www.IC3.gov](http://www.IC3.gov).

## RECRUITING VOLUNTEERS ~Marcus Andrews

Crunch time is upon us, and we are entering the last few months to get potential candidates through the recruit application process for the upcoming Academy.

In the last two months we welcomed two recruits: Audrey Anderson (responding from St. 83) and Matthew Rule (responding from St. 80). We have three additional candidates that are well into the paperwork phase working towards establishing membership. We have six recruits attending our 2022 Fire Academy so far with the potential of adding the three additional recruits.

We are continuing to adapt and reevaluate our recruiting efforts. We have utilized radio advertisements, billboards, and social media, to name a few. We have seen some success with all of the methods used this year and continue to look for the next marketing idea that will work for Stayton Fire. Recruiting tactics are changing all the time, but one has stayed most effective for years—word of mouth—it's the best way to recruit, so everyone can help by spreading the word.

We all love volunteering and can convey passion to potential candidates. As a whole, we do very well talking with potential candidates and I would like to say thank you for your help and support. Let's keep up the great work and continue to grow our ranks.

**Audrey Anderson:** I enjoy the outdoors, my two dogs, anything to do with camping, fishing, or being outside in nature. I am a Chef and a Culinary Arts Instructor. When I am not at work cooking, I try to spend as much time with my family as possible. I decided to volunteer because I really wanted to give back to this community, and in large part because of my grandfather and his involvement with the fire department over the years, I value the work that first responders provide, and wanted to be a part of that in an area that I love and call home. I am looking forward to Fire Academy in January, and just absorbing everything that I can about fire service and EMS.

**Matthew Rule:** I wanted to volunteer because I want to help people. I feel like being a first responder is the greatest way I can positively impact the community. My interests are spending time with my amazing wife and playing MMO games, as well as drawing. I look forward to being able to respond to calls so that I can help others.
